DID YOU KNOW?

Women are more rational than men because of a thicker cerebral cortex than men. Ahem! Women are always right.

SUBJECT 3

STATISTICS & LOGICAL REASONING

"Logic is the anatomy of the thought"

– John Locke

Life thrives on logic and not on magic. And it's all about averaging. Let's explore its impact !!

It is by the aid of
Statistics
that law in the
social sphere can
be ascertained
and codified.
Florence Nightingale

Statistics :

**“ Facts are stubborn , but statistics are more pliable”
– Mark Twain**

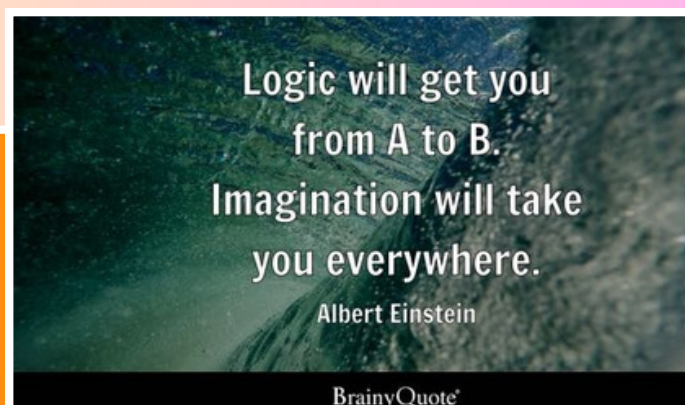

Life is a game of averages. No one shines in every area, and no one fails in all. Success lies in balancing our strengths and weaknesses. Just like in CA exams, scoring 80+ in a few subjects and maintaining an average of 40+ in others can lead to success. It's about finding the right blend.

Logical reasoning :

**“Nature is the source of all true knowledge. She has her own logic, her own laws, she has no effect without cause nor invention without necessity”
– Leonardo Da Vinci**

Life cannot move on without any logic. While magic may offer a fleeting advantage, logic is the constant companion that guides us forward. Relying on reason ensures that our choices work in our favor. Balance and logic are the true keys to progress.

COMIC PANEL

I had a crazy dream last night! I was swimming in an ocean of orange soda. Turns out it was just a Fanta sea.

What do you call a small mother?
Minimum

What do you call a sheep who can sing and dance?
Lady Ba Ba.

I went to the aquarium this weekend, but I didn't stay long. There's something fishy about that place.

To the guy who invented zero, thanks for nothing.

WORD OF THE MONTH

Canard- /kə'nɑ:d/

Canard refers to a false report or story, or to a belief or rumor that isn't true.

"The book unfortunately repeats some of history's oldest canards."

LEARNINGS FROM THE GITA

देहिनोऽस्मिन्यथा देहे कौमारं यौवनं जरा।
तथा देहान्तरप्राप्तिर्धीरस्तत्र न मुह्यति॥ २-१३

Just as the boyhood, youth and old age come to the embodied Soul in this body, in the same manner, is the attaining of another body; the wise man is not deluded at that.

CONFLICT RESOLUTION

Prevents Misunderstandings | Strengthens Relationships | Enhances Problem-Solving Skills

In the CA profession, conflicts are inevitable—whether with clients, colleagues, or even your study group. How you handle these disagreements determine your ability to work effectively in teams, maintain professionalism, and grow as a leader.

How to handle conflicts?

Situation: During an audit, you identify an error in a client's financial statements. The client gets defensive and insists that the records are correct.

Conflict: They refuse to accept the mistake, making your job harder.

Resolution Approach:

- Stay professional and avoid being confrontational. Instead, say: "I understand your concern. Let's go through the numbers together to clarify the issue."
- Use documented evidence and previous records to explain why the correction is necessary.
- Offer solutions: "Here's how we can rectify it without penalties."

WIN-WIN

Good conflict resolution helps a CA navigate work environments smoothly and build strong professional relationships. .

Stay Calm and Listen – Avoid reacting immediately. Let the other person express their point of view.

Understand the Root Cause – Find out what's really bothering the other party.

Use Facts, Not Emotions – Keep the conversation professional and data-driven.

Suggest a Win-Win Solution – Offer a compromise that benefits both sides.

Follow Up – Ensure the issue is completely resolved and won't cause further problems.

Wall of WORDS

✦ *Diwali: color of night!* ✦

To the festival of lights

I bow,

With every amend I make

indulges great devotion

With every lamp lit evokes Triumph,

Light over darkness,

Lamps lit alight,

Glamorous flowers by side,

Fireworks welcoming through the sky,

Colors over the starry night,

Bringing brightness in the moonlight . 🌙

Amidst Chaos candle sparks,

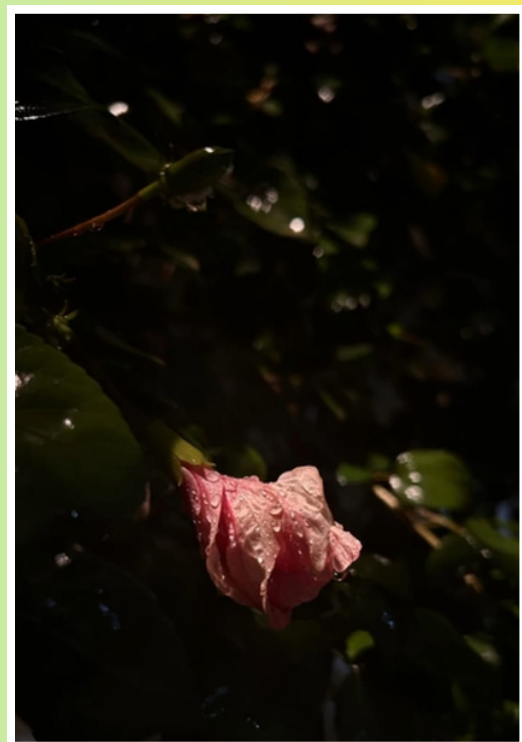

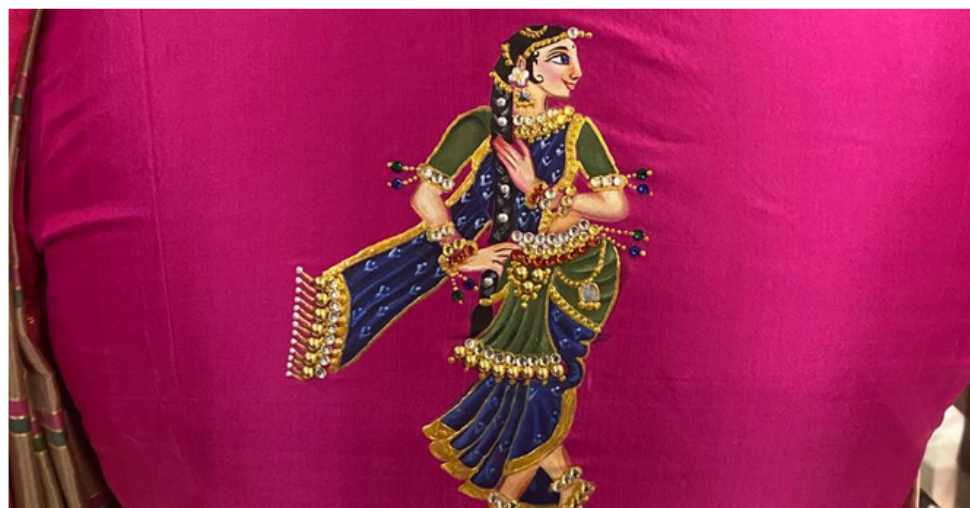

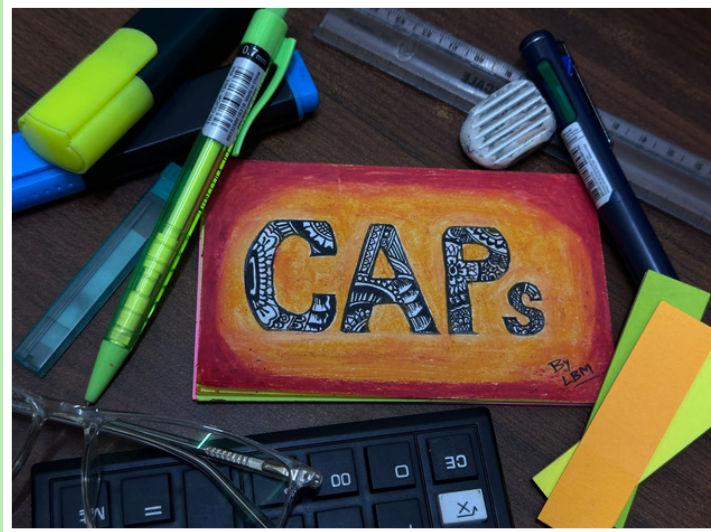

Children play with delight,

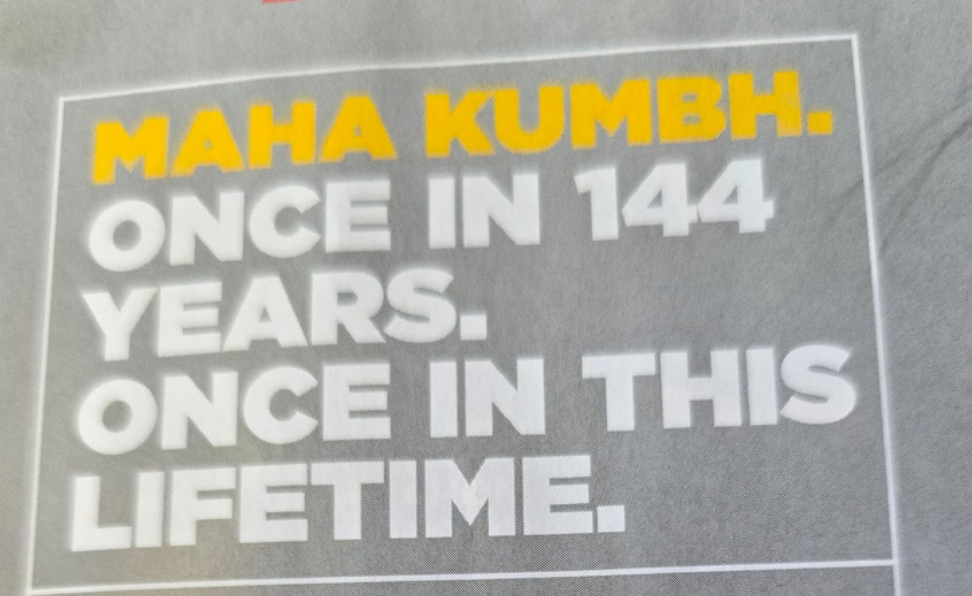

Happy face at every sight,

That's diwali night.
