

Why should we do good to the world?

“Apparently to help the world, but really to help ourselves” - Swami Vivekananda

The world that we live in is a beautiful place and the life that we have, is a gift to be treasured. It is up to us to make this earth a peaceful and a happy abode. Poverty, illiteracy, dowry, infanticide, unemployment and inadequate infrastructure still continue to cripple India. Well, we don't need a superhero to fight it all. All we need is a world with human beings, with qualities that are humane too.

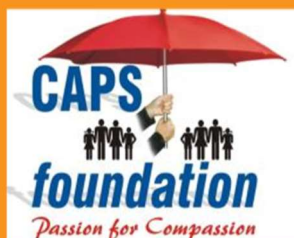

CAPS foundation®

"Nobody can do everything,

BUT

everybody can do something!"

CAPS foundation® is one such step towards winning over the deficiencies within. Started on the 18th of May, 2008, it is a registered trust with activities ranging from promotion of education, career orientation, donation of infrastructure to schools, free library, communication programmes, blood and eye donation camps, adoption of endangered animals, planting of saplings, promotion of talent of the disabled, relief programmes and the list goes on and on.

We don't believe in the power of money. We believe in the power of being human. Come, take that little step towards being human and see how the world around you changes.

“Takers eat well;
Givers sleep well”
